

PAK UON Chapter visited Kabete Rehabilitation School, Lower Kabete.

The purpose of the visit was imparting a smile on the institution's pupils, motivations, empathy and an encouragement. It was one of our club's values to make them feel part of society.

The main objective of the visit was to touch the lives of the rehabilitated kids, some of whom are teenagers and empowering to brace themselves for higher roles in the society. The activity sought to inspire them to attain a self drive and momentum towards their goals and aspirations as better members of the society. While the world continues to turn, the activity served as a reminder that we need one another in the spirit of **UBUNTU**, to attain a more peaceful ecosystem which we live in.

We did introductions and engaged in the following activities; bonding, entertainment, talent shows; dancing, poetry & singing. We also engaged the kids by listening to them as they opened up , giving necessary counsel and encouraging them.
